EXPERIMENT 4b

Conduct task analysis for an app (e.g., online shopping) and document user flows. Create corresponding wireframes using dia

NAME : Hemalatha ST

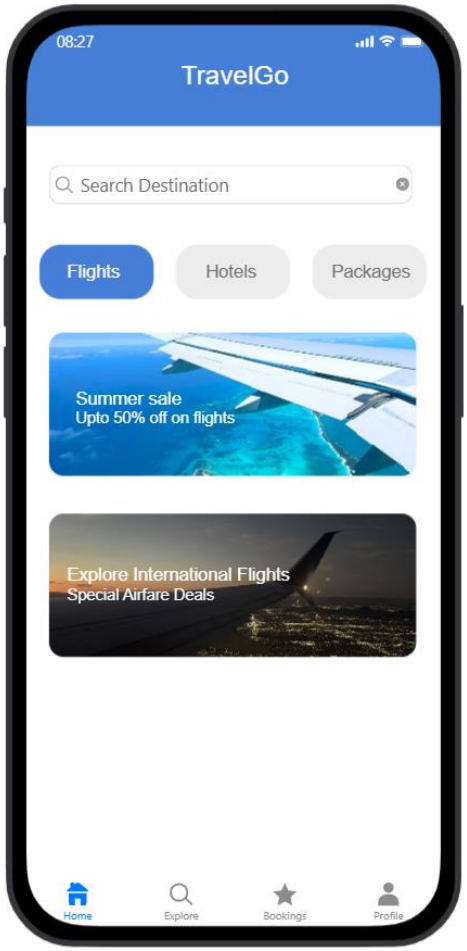
REG NO:240701189

AIM:

The aim is to perform task analysis for an app, such as online shopping, document user flows, and create corresponding wireframes using Dia.

Screen 1:

Home Page (TravelGo App)



Familiar Icons:

1. Home Icon – Bottom Left:
   o A commonly used icon representing the main dashboard.
   o Clicking it takes the user to the home screen.

2. Search Icon – Bottom Navigation Bar:
   o A widely recognized symbol for search functionality.
   o Clicking it allows users to explore destinations and flights.

3. Star Icon – Bottom Navigation Bar:
   o Commonly represents favorites or bookings.
   o Clicking it opens the bookings section.

4. Profile Icon – Bottom Navigation Bar:
   o Represents user account or profile information.
   o Clicking it opens the profile page.

5. Search Bar – Below the Title:
   o A standard UI element for entering destination names.
   o Users can type and search for locations.

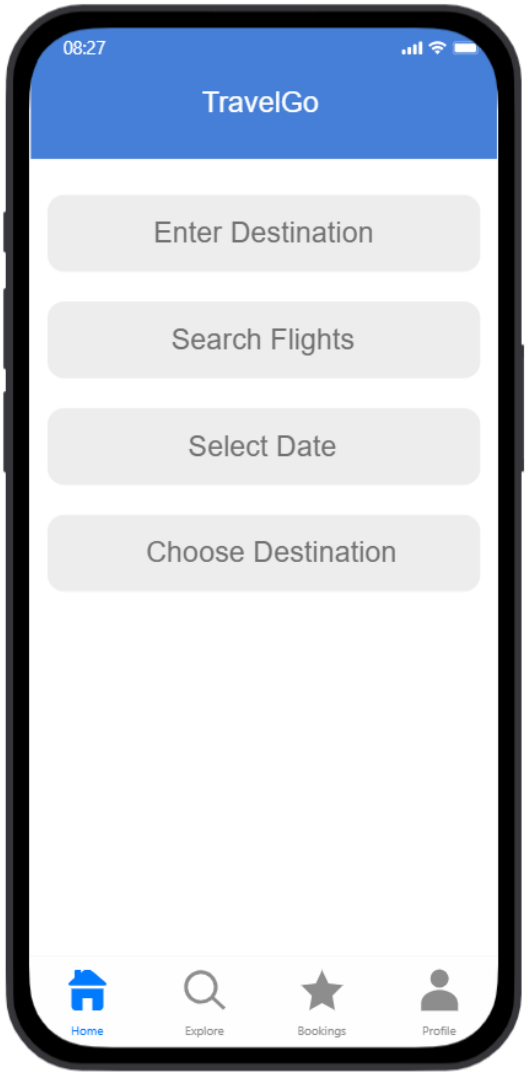
Possibly Unfamiliar Icons / Elements:

1. Category Buttons (Flights, Hotels, Packages):
   o These are text-based buttons without visual icons.
   o New users may expect icons like ✈️ or for better clarity.

2. Promotional Banner (Summer Sale – Up to 50% Off):
   o Although visually clear, it may not clearly indicate if it is clickable unless interaction is shown.

Screen 2:

Search / Flight Input Page



Familiar Icons:

1. Home Icon (🏠) – Bottom Navigation:
   o Standard navigation icon returning to the home page.

2. Profile Icon (👤) – Bottom Navigation:
   o Opens the user profile.

3. Search Field Placeholder:
   o A common UI element for entering destinations.

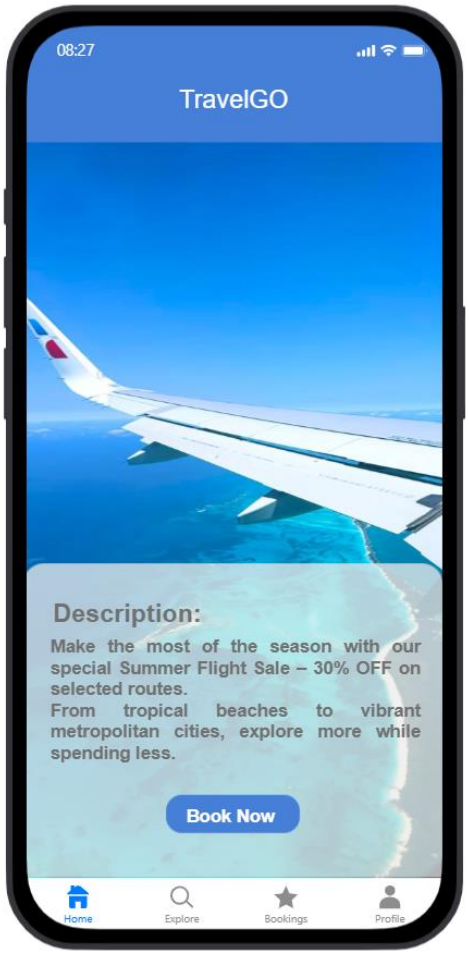
Possibly Unfamiliar Elements:

1. "Choose Destination" Button:
   o The function may not be immediately clear if not connected to a dropdown or selection list.

2. Grey Button Styling:
   o All buttons appear similar in color, which may confuse users about which action is primary.

Screen 3:

Summer Sale Description Page



Familiar Icons:

1. Home Icon – Bottom Navigation:
   o Standard navigation feature.

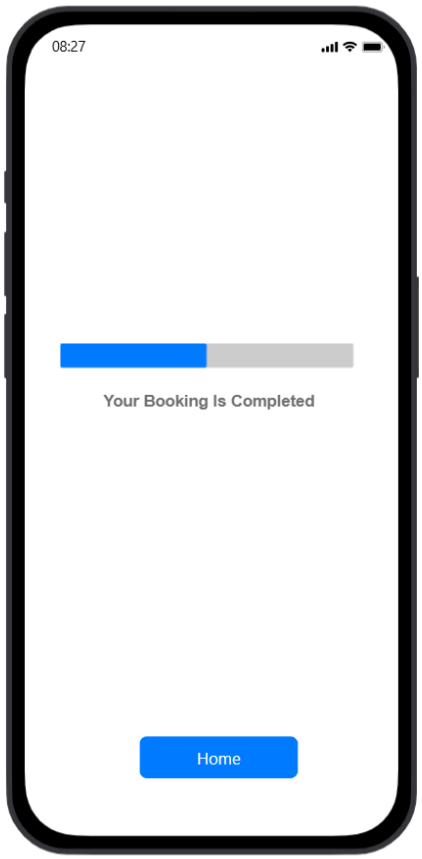
2. Book Now Button:
   o A common call-to-action (CTA) button used in travel apps.
   o Clicking it likely proceeds to booking.

Possibly Unfamiliar Elements:

1. Overlay Description Panel:
   o The semi-transparent panel may not clearly indicate whether it is scrollable.

Screen 4:

Booking Completion Page



Familiar Icons:

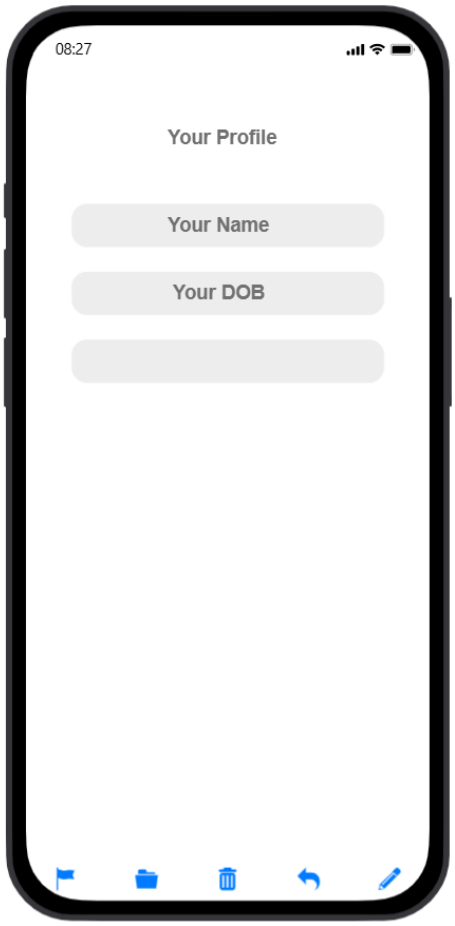
1. Progress Bar:
   o A commonly used visual indicator showing completion status.
2. Home Button:
   o A standard CTA button returning to the home screen.

Possibly Unfamiliar Elements:

1. Partial Progress Indicator:
   o The blue and grey bar may confuse users if the booking is already completed but not fully filled.

Screen 5:

Profile Page



Familiar Icons:

1. Edit Icon – Bottom Right:
   o Universally recognized symbol for editing profile details.
2. Delete Icon – Bottom Center:
   o Represents deletion of information.
3. Back Arrow :
   o Standard navigation icon to return to the previous screen.

Possibly Unfamiliar Icons:

1. Flag Icon :
   o The purpose may not be immediately clear without a label.
2. Empty Input Fields:
   o Users may not understand if they need to manually type or click edit first.
